

Communication

Date	02 July 2026
Team ID	
Project Name	Credit Card Approval Prediction
Maximum Marks	5 Marks

Communication Plan :

S.No	Communication Type	Frequency	Channel / Tool	Participants	Purpose
1	Team Standup	Daily	Google Meet / WhatsApp	Project Team Members	Discuss daily tasks, assign responsibilities, and track project progress.
2	Progress Update	Weekly	Google Meet / Google Docs	Team Members & Guide	Present weekly achievements, review completed work, and receive suggestions.
3	Issue / Bug Discussion	As Needed	WhatsApp / GitHub / VS Code Live Share	Development Team	Resolve coding issues, debugging, preprocessing errors, and model implementation challenges.
4	Stakeholder Review	Bi-Weekly	Google Meet / Presentation	Faculty Guide & Team	Demonstrate project progress, discuss evaluation metrics, and collect feedback for improvements.

5	Final Demo Rehearsal	Once	Google Meet / Classroom	Entire Team	Practice project presentation, validate workflow, and ensure smooth demonstration.
6	Documentation Review	Before Submission	Google Docs / Microsoft Word	Team Members	Verify report quality, code documentation, screenshots, and project deliverables.

Communication Challenges & Resolutions :

S.No	Challenge Faced	Resolution / Action Taken
1	Understanding the credit dataset and creating the target variable from multiple repayment records.	Conducted team discussions, analyzed dataset documentation, and finalized a binary target generation strategy after validation.
2	Class imbalance affected machine learning model performance and reduced recall.	Compared multiple algorithms, evaluated confusion matrices, and explored techniques such as class weighting and SMOTE for improvement.
3	Coordinating project development, documentation, and testing among team members.	Scheduled regular meetings, maintained shared documentation, and divided responsibilities to ensure timely completion of all project tasks.
