

Project Demo Planning

Date	02 July 2026
Team ID	
Project Name	Credit Card Approval Prediction
Maximum Marks	5 Marks

Project Demo Planning :

S.N o	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Introduce the project, explain the importance of credit card approval prediction and the challenges faced by financial institutions.	2 min	Team Member 1
2	Dataset & Methodology	Explain the datasets used, data preprocessing, feature engineering, and machine learning workflow.	3 min	Team Member 2
3	Exploratory Data Analysis (EDA)	Demonstrate visualizations including class distribution, correlation heatmap, feature distributions, and insights obtained.	3 min	Team Member 3
4	Model Training & Evaluation	Present machine learning models used, evaluation metrics, confusion matrix, ROC-AUC, and comparison of model performances.	4 min	Team Member 4
5	Live Prediction Demonstration	Show real-time prediction using the trained Random Forest model with sample customer data.	3 min	Team Member 1

6	Conclusion & Future Enhancements	Summarize project outcomes, limitations, and discuss future improvements such as deployment, SMOTE, and web application integration.	2 min	Team Leader
---	----------------------------------	--	-------	-------------

Demo Flow Summary :

Step	Activity	Notes
1	Introduction & Problem Statement	Explain the business problem, project objectives, datasets used, and significance of predicting credit card approval using machine learning.
2	Solution Overview	Describe the complete machine learning pipeline including data preprocessing, feature engineering, model training, evaluation, and model selection.
3	Live Feature Demonstration	Demonstrate dataset loading, preprocessing, EDA visualizations, model training, evaluation metrics, confusion matrix, feature importance, and real-time prediction using the saved model.
4	Q&A Session	Answer questions related to dataset selection, preprocessing techniques, model comparison, evaluation metrics, limitations, and future enhancements.
